

Woodworking CAD/CAM Programming Engineer

Location: Everett, WA

Job Type: Full-time – On-Site

Reports To: Engineering Manager

Ability to Relocate: Everett, WA 98201: Relocate before starting work (Required)

Company

Privately held, great family owned, commercial cabinetry company. We are a high-end, custom, commercial woodworking and cabinetry company looking for a full-time Engineer to join our manufacturing engineering team in a fast-paced commercial construction environment.

Job Description

In this newly created position, the qualified candidate will be working as part of our engineering team, taking newly awarded jobs through all stages of engineering and production to installation. Typical tasks will include creating buildable shop drawings from architectural drawings, communicating with project managers to request information or solve problems, and working with the purchasing department to procure job materials. In addition, candidate will be working with the programming engineers and production managers to release work orders to support the job as it moves across our production floor.
